POST PLACES

ON CAMINETTI

Commissioner General of Immi-
gration Delayed Action In
Deportation Cases.

Declares He Has Taken Affairs
From Hands of Caminetti

(By Associated Press.)

Washington, May 7.—Appearing
before the House Rules Committee to-
day to defend his official conduct in
alien deportations assistant Secretary
of Labor Post charged that Commis-
sioner General of Immigration Cami-
netti had delayed action in depor-
tations by withholding cases so he
might compile "an unauthorized and
unlawful memorandum" recommending
final action.

Mr. Post declared that last March
he changed the custom that had grown
up in the department of permitting
Caminetti to make recommendations
and went direct to the record to make
the final decision himself. This, he
argued, was the only legally author-
ized procedure.

Engagement Occurs at Otumba
Between Mexico City And
Puebla in State of Puebla

Federal Army Marching Into
Puebla in Determined At-
tempt to Repel Rebels

Whereabouts of Carranza Still
In Doubt But Fall Expected
Soon.

General Gonzales Declares He
Will Fight the Obregonistas.

Situation Complicated by Gon-
zales' Stand.

(By Associated Press.)

Washington, May 7.—
General Murgui has been
sent into the state of Puebla
to attack the forces of Gen-
eral Gonzales and an en-
gagement already has oc-
curred between the Carranza
troops and the rebels at
Otumba between Mexico
City and the city of Puebla.
Authoritative advices
reaching Washington today
said Gonzales had declared
that he was not in league
with the Obregonistas and
would resist them by force
of arms. This was regarded
as complicating the entire
situation in Mexico.

Washington, May 7.—A
private message received
here from Mexico City this
morning via Laredo, saying
that President Carranza al-
ready had left the Mexican
capital for Vera Cruz, has
not been confirmed in of-
ficial circles.

According to the message,
Carranza left Mexico City
last night, accompanied by
a guard of troops under com-
mand of his son-in-law, C.
Aguilar, and that he osten-
sibly was headed for Vera
Cruz.

Analysis of reports yesterday on the
Mexican situation had caused the
revolutionary agents here to predict
that Carranza would abandon the cap-
ital soon, either in flight from the
country or to some point from where
he would attempt to carry on gov-
ernment business and direct military
operations against the rebels.

Their view of the situation found
support in official quarters, where the
greater part of the reports received
had indicated a steady growth of the
rebellion.

SMALL REVOLT
IS UNDER WAY
IN BORDER TOWN

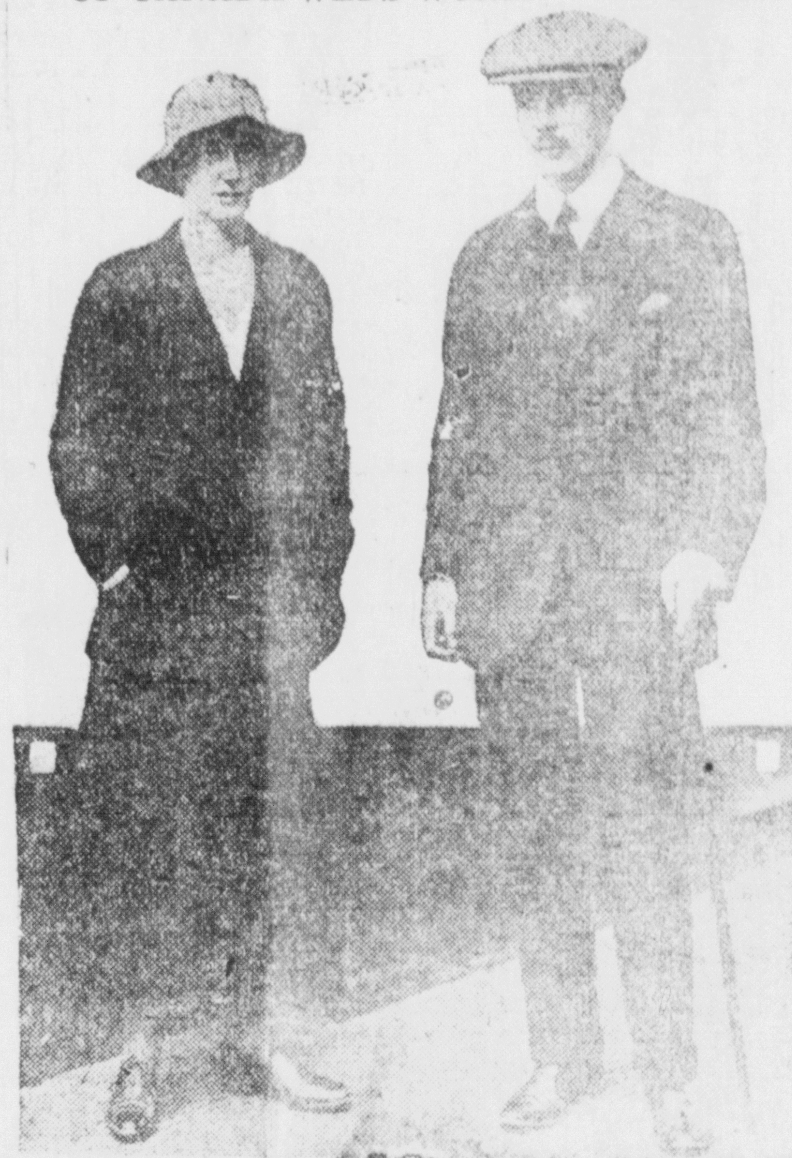

(By Associated Press.)

Laredo, Texas, May 7.—Sixty em-
ployees of the Mexican Customs and
Immigration service in Nuevo Laredo,
opposite here, today declared them-
selves to be "Obregonistas" and noti-
fied military authorities they would
attack the Federal garrison unless the
town was surrendered this afternoon.

The Mexican consul here declared
the rebels are not of sufficient force
to make a successful attack.

It was reported that a large force
of rebel cavalry was approaching
Nuevo Laredo, to demand its sur-
render. American authorities closed the
international line at noon today.

SEN. JOHNSON
WOULD NOT BE
VICE-PRESIDENT

Scorns Idea And Says Enemies
Suggested The Thought

(By Associated Press.)

Washington, May 7.—Senator
Johnson of California has supplement-
ed the authorized statement of two
weeks ago by one of his campaign
managers that in no circumstances
would he accept nomination for the
vice-presidency by making a formal
statement to that effect himself.

He said: "Under no circumstances
will I accept the republican nomina-
tion for the vice-presidency. It is
amusing that the men who are sug-
gesting me for vice-president are
most horrified at the thought of my
nomination for the presidency."

by Julius Barnes, United States
Wheat Director.

The Chicago Board of Trade and
other exchanges made known that
they were anxious to resume trading

before the Senate Inter-State Com-
mittee today did not agree with the
testimony of railroad executives yes-
terday that the government should
loan \$500,000,000 additional to the
railroads for new rolling stock.

"They said, however, that no great
part of the \$610,000,000 which the
railroad presidents estimated to be ne-
cessary for new equipment to relieve
present congestion could be raised
from the public."

American Industry and Not
Labor Responsible For High
Living Costs is The Charge
Made.

Submit Statistics to Railroad
Labor Board in Support Of
Their Claims.

Attention Called to The Large
Number of War-Made Mil-
lionaires.

(By Associated Press.)

Washington, May 7.—A
study of profiteering in Amer-
ican industry, conducted
under the auspices of the
railway brotherhoods, was
presented to the railroad la-
bor board today in support
of the railway workers' de-
mands for higher pay and to
refute the charge that in-
creased labor costs are re-
sponsible for the high cost
of living.

Prepared by W. J. Lauck,
former secretary of the War
Labor Board, the study
seeks to show that profiteer-
ing in industry is the funda-
mental cause for higher
prices in practically all com-
modities and gives statistics
to support that contention.

Calling attention to the many war-
made millionaires the study contends
that a three-fold relationship exists
"between high prices, profiteering and
the addition to the quota of million-
aires" and that the increase in wealth
of the wealthy is an "unanswerable
refutation to all attempts to charge
labor with profiteering and to all at-
tempts to hold labor responsible for
the high cost of living."

STREET WORK GOES FORWARD WITH A VIM

Andrews Company Makes Deal For Gravel With Local Concern.

Long Delay Avoided By New Deal and Immediate Resumption of Work Follows.

The signing of a contract by the Andrews Asphalt Paving Company with the Fayette Sand and Gravel Co. brought to an end Friday the deadlock in the work on the streets due to inability to get gravel and sand and gave promise of the immediate resumption of resurfacing work on the streets and rapid progress.

Friday afternoon the first gravel was removed from the pits along Paint creek in the eastern section of the city by a steam shovel which was moved to the location as soon as the contract had been effected. The deal brings about the abandonment of a tentative arrangement near the water works.

Inability to secure sand and gravel has held up the patchwork on the main streets for the past two weeks and has been a great annoyance and hindrance to the contracting company, which in desperation, was on the verge of opening up their own pits when it was found that it would be possible to secure the needed material from the Fayette Company in a much shorter time than it would take to prepare for digging and hauling gravel from a newly purchased bank.

The latest development is hailed with great enthusiasm by people who have been anxious over the delay and torn up streets.

NIGHT SCHOOL ENDS WAS A SUCCESS

All classes in the Y. M. C. A. Night School completed their work Friday evening with the exception of the French class which has several sessions yet before disbanding for the summer.

Considering the many handicaps which the classes have undergone and conditions under which the school was held General Secretary Fraser announces that the students made splendid records.

Why Women Like the A-B-C

In the A-B-C Super Electric Washer you get the benefit of long experience that has attained the fullest perfection in this one supreme model. Every wash-day requirement has been considered from the woman's viewpoint, the servant problem not excepted. This washer satisfies users beyond exception—its worth to them increases as they discover its efficiency in thoroughly cleaning all washable clothes with the minimum of time and labor.

Women have given these particular reasons for liking the

A-B-C Super Electric

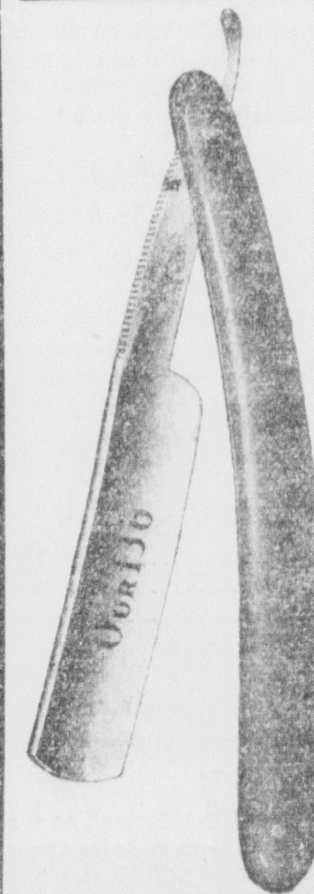

America's Leading Washing Machine

1. It is a cylinder washer—the cylinder reverses at every revolution.
2. Clothes are carried through the water, then dropped, forcing suds through the clothes 44 times a minute, washing thoroughly.
3. The cylinder reverses silently without jar—demonstrate this yourself by standing a pencil erect on the machine.
4. No water is splashed out on the floor.
5. Cylinder cannot pull off buttons or injure any fabric—examine the inside and see why.
6. Cylinder and tub cleaned by rinsing with clear water—no fitting or scrubbing.
7. All position swiveling wringer with reversible rolls and drain—cannot sag, may be lifted off.
8. It is most simple to understand and operate—no complicated mechanism—nothing to get out of order.
9. Full one-fourth H. P. motor operates wringer and washer simultaneously—protected against burnouts from overload by adjustable belt drive—protected against water—detachable for other uses.

Using the A-B-C Shows More Advantages

It isn't necessary to go into further details—other likable things reveal themselves as you use the A-B-C in your own home.

MINISTER SAYS SIGHT RESTORED THROUGH HEALER

Word from Dayton is to the effect that John Wesley Hughes, claiming to be a pastor of the Christian Union Church, of this city, declared that through a religious healer now visiting Dayton that his sight was restored.

Details are lacking, but inquiry at this point elicits the information that Hughes, although licensed at a conference of the church held at Cincinnati, to preach, was not accepted by the church here. Local members of the church say that Hughes had been blind or nearly so, for a year or more, but took little interest in his claims of having had his sight restored by a religious healer.

BROADWAY LEADS ALL OTHER STREETS

Broadway is leading all other streets in the city in painting up.

A half dozen residences in a row are either undergoing the transformation carried by a fresh coat of paint, or soon will be receiving a new coat. Others on the street are said to be planning the same improvement.

ELBOW DISPLACED

Brown Grieves, the twelve year old son of Mr. and Mrs. Frank Grieves of Oak street suffered a badly dislocated right elbow Thursday evening when he fell from a fence. The boy was playing with a dog in the yard of the home and attempted to leap on the fence.

He was carried into the house and a doctor summoned. An X-Ray photograph of the displacement was made at the Stitt-Todhunter offices Friday.

PLOWS UP EGGS MYSTERY SOLVED

D. E. Mershon, while plowing near Jonesboro this week, was greatly mystified when his plow turned up hen's eggs in large numbers.

After a large number of eggs had thus been brought to light Mr. Mershon discovered that an ambitious pup owned by him was making frequent trips to the hen's nests, obtaining eggs and burying them.

COAL SHORTAGE AGAIN BECOMES ACUTE IN CITY

One of the greatest coal shortages that this city has ever faced was a realization Friday when the fifth day that all local dealers were practically stripped of coal found the supply in bins of business houses and public institutions rapidly diminishing.

Leading dealers stated that the famine had reached its peak and that the shortage would be broken Saturday if coal on the road was not delayed.

Janitors at the Y. M. C. A. put their last shovelful of coal in the furnace Thursday morning and since that time all showers and baths have been of frigid temperature. The building is entirely without heat, nor even wood being obtainable.

Although it has been probably the greatest coal shortage faced by the city for some time it has not been noticeably apparent because of the warm weather with which it has been accompanied. There is no suffering in private homes and the demand for coal has not been in frenzied manner as it was in the dead of winter.

Dealers stated that the switchmen's strike was directly responsible for the situation and that the shortage would disappear when the conditions in railroad circles had become somewhat smoother.

Lady Overcomes Use Of Morphine

"Troubled about 10 years with what the doctors called gall stones, often I thought I would die before the doctor could get here, when he would give me a hypodermic of morphine and advise an operation. A neighbor told me about May's Wonderful Remedy for stomach trouble, and since taking the first dose 2 years ago I have not had an attack nor needed a hypodermic." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Blackmer & Tanquer, Frank Christopher, druggists—Advt.

OPEN DISCUSSION IS BEST WARFARE AGAINST CANCER

"Open warfare by open discussion" is the slogan for "Cancer Week" starting Sunday May 9, the purpose of which is to prevent needless deaths from this disease, through a campaign of public education.

The common belief that cancer is a hopeless malady is said to be partly due to the fact that cases of successful treatment are frequently concealed by the patient and his family. Cancer is not related to any kind of misconduct or moral discredit in the afflicted individual or his family. It is not a so-called "blood disease," and should not be erroneously associated in thought with social diseases. Neither is cancer contagious or inherited as often thought.

Cancer is not confined to the human race only, it is found, too, in lower animals; for instance, the dog seems to lead in point of frequency of cancer. Even certain growths in plants as crown-galls, are considered by some as cancerous tumors. In human beings, cancer increase seems to be in direct relation with civilization; that is, man in primeval condition with the simple life which differs very little from that of the animal, seems to be far less susceptible to malignant tumors than the man higher up in civilization. Poverty, filth, squalor, the great producers of infectious diseases, seem not to be directly responsible for the production of cancer. No racial immunity seems to exist for cancer; mankind wherever found and under whatever conditions existing is susceptible to cancer to a greater or lesser degree.

BREAK GROUND NEW GARAGE ON EAST STREET

P. E. Baker Will Erect Modern Garage Building Across Alley From Palmer Garage.

General Garage Business Planned and Building Will Be Ready In June.

Excavation work for a new building to be occupied as a garage by P. E. Baker, auto mechanic has been started on East street on the lot formerly known as part of the Cramer estate directly opposite the Washington Gas and Electric Company.

Contractor Addison Hays will erect a two story brick and cement building which will have almost the full frontage of the lot while it will extend the full depth, 62½ feet. It is expected that the building will be completed within six weeks if no unforeseen interference occurs.

Baker, who is now occupying a repair shop in the rear of the Ford Hardware Store on the Dale alley, will engage in auto repair on a much larger scale and will engage in the regular line of garage work, and auto laundry will also be run in connection with the garage and store room will be provided.

The Cramer lot was purchased last winter and announcement was made at that time that a garage would be erected although Mr. Baker did not state the nature of the structure which he was to place on the site.

Progress has already been made in clearing the site for the building and a force of workmen has made an appreciable change in the vacant lot.

SEMINARY WILL SOON BE MOVED

The Board of Managers of the Xenia Theological Seminary has decided to move the seminary to St. Louis, and this will be done in the near future.

TRY TAKING PEPTO-MANGAN

It Isn't Sleep You Need, But a Good Tonic—More Red Blood

Everyone gets run down occasionally. Sometimes it's weeks before you get your enthusiasm and happiness back again.

Any doctor will tell you to be careful in a time like this. Your body has little power of resistance, and the danger of catching some serious disease is great. Temporarily, your blood has too few "fighting" corpuscles.

It's the work of these same red corpuscles to keep you free from fatigue. Being constantly tired out—depressed in body and mind—is almost a sure sign that your blood needs help for a time.

Gude's Pepto-Mangan is a standard remedy in cases of anemia (or bloodlessness). It supplies the iron and other properties your blood needs to catch up with its task of keeping you fresh and alert in every fibre.

Pepto-Mangan has the hearty endorsement of physicians. It is an agreeable tonic to take, and may be had at any drug store in either liquid or tablet form. Both have same medicinal value.

Be sure to ask for Gude's. There is only one genuine Pepto-Mangan, and the name "Gude's" should be on the package.—Advertisement.

Dangerous Inattention

Every since that memorable day in November, 1918, when the armistice was signed bringing the world war to an end, the people of the world have faced commercial and industrial confusion more harmful in its future effects, more burdensome during the present time than that of war time.

We have been going in "vicious circles," ever widening and ever deepening—raising the price of labor and, at a greater ratio than the advance granted labor, increasing the cost of living. Everyone, speaking generally, seems obsessed with the idea of getting money, as much money as possible for the work they have to perform or the goods they have to sell. We seem to be going pell-mell after every dollar it is possible to wring from the public, not always particular about the methods employed to get the dollars.

We call attention to the misdeeds of other folks and forget to bring ourselves down to normal either in our expenditures or in the pursuit of wealth. We continue on our course shouting all the time that something must be done by somebody. We want everyone else regulated but as for ourselves we want to be allowed to pursue our own way.

The amazing feature about it all is that we all know what the trouble is—that the remedy lies with ourselves—and yet we plunge along heedless of the warnings of others, heedless of the promptings of our own consciences.

We hear enough and we know enough but we give the warnings no attention and until we do stop and attend to ourselves, the milling is certain to continue.

The "vicious circle" cannot be broken by legislation, its whirling cannot be stopped by governmental decree.

Each individual citizen must take stock of his own affairs, step out of line and let the "circle" go whirling along without him. He may look a little out of place for awhile, standing outside with so little company but, at an ever-increasing ratio others will drop out and stand at attention until we get the majority settled down to normal. It's all up to us.

Encouraging

We are all cheered by the announcement of the Chief of Ohio's Bureau of Horticulture that the long continued cold weather this spring has so hardened the fruit buds that the light freezes and frosts have had no ill effects and that, as against any ordinary May cold spell, there is no danger of the fruit being killed.

The Ohio orchardists encouraged by the splendid prospects have piled up the wood near the blossom-laden trees, have got their smudge pots ready for use if the indications for a heavy frost warrant.

It has been many years since we have had such an abundant promise for a big fruit yield and we are already beginning to count upon it.

Not So Different Now

When we are inclined to become discouraged with the continual din of fault finding and bitter criticism of the present, when we are inclined to become disgusted with the constant preaching about capital's arrogance and about the oppression that is heaped upon labor until we conclude that there never were such times as these it will be helpful to read:

"There are persons who constantly clamor. They complain of oppression, speculation, and the pernicious influence of accumulated wealth; they cry aloud against all Banks and Corporations, and all means by which small capitalists become united in order to produce important and beneficial results.

"They carry on mad hostility against all established institutions. They would choke the fountains of industry and dry all streams. In a land of unbounded LIBERTY they clamor against oppression. In a land of perfect EQUALITY they would move Heaven and Earth against privilege and monopoly. In a land in which property is more evenly divided than anywhere else, they rend the air shouting about agrarian doctrines, and in a country in which the wages of labor are beyond parallel, they would teach the laborer he is but an oppressed slave."

Those statements were made by one of our greatest Americans—Daniel Webster—in his speech in the United States Senate way back yonder in 1833—more than three-quarters of a century ago.

Each time and each generation has its troubles and its worries and while each one fears it is worse off than any of its predecessors on the world's stage, it isn't really. We have always with us the agitators and the chronic complainers and the foolish radicals who have an instantaneous remedy for all ills. They are a part of life and must be accepted not as something new and dangerous but as an old feature.

POETRY FOR TODAY

A HEARTLESS WORLD

It is a heartless world, I thought,
And all for self man lives;
'Tis graft and greed on every side,
And little heed he gives
To the unfortunate and weak,—
Those sorrowing and in need,—
Thus mused I as I went my way,—
A selfish world indeed!

And old man limped along the street,
Half blind he was and lame;
Then paused he at the crowded curb,
Quick to his succor came
Strong arms, kind hands, and willing
feet;

Not one pedestrian
But offered cheerfully to help
That poor old feeble man.

A pigeon fluttered to the ground,
With bruised and broken wing;
A little lad swift darted out
The crowd; the helpless thing
To rescue. "Who will care for it?"
I asked. He bared his head,
"I'll take it to the hospital
For animals," he said.

And ere my journeying was done
Adown the street that day,
How many were the kindly deeds
I noted on the way!
O never say the world is lost—
To selfishness and greed
While willing hearts and hands still
serve,
And minister to need!

AN EXCEPTION
TO OLD AGE
WAS BLESSING

Woman Decided To Take Other
People's Advice and is Greatly
Benefitted by Trutona.

Springfield, O., May 6.—Mrs. Albert J. Hunter, wife of A. J. Hunter who is connected with the Western Mutual Life Insurance Company here and resides at 319 Cedar Street, decided to try Trutona because so many other people spoke so highly of the new medicine. The remarkable benefits she gained from its use are explained in her interesting statement which is as follows:

"My general system became run-down by continued suffering from stomach and nervous troubles. My appetite was very poor and what little food I would eat didn't seem to digest as it should, which caused me to bloat and belch for about an hour after meals. I'd often feel tired and worn out during the day, as restless nights were not unusual things for me. I'm not positive but it seemed that I was losing in both weight and strength.

"I had heard Trutona spoken of so highly by so many people that I decided to try it, and I can truthfully say that I am very glad that I made that decision. I feel so much better now. I can eat hearty meals these days and they are properly digested, too. I'm not so nervous now and I feel as though I'm gaining both my weight and strength back again. I think Trutona is a splendid medicine and I'm glad to recommend it."

Trutona is now being introduced and explained in Washington C. H., at Frank Christopher's.—Adv.

NERVES STEADY AS
8 DAY CLOCK
SAYS ATHENS LADY

Never know what a full
night's rest was, rolling and
tossing from one side of the
bed to the other.

Now she sleeps sound and
awakes feeling refreshed,
since taking Drecto.

"I used to dread going to bed because it meant fitful sleep, bad dreams and rising next morning more tired than the night before," said Mrs. Stella Guess, of 6 Brown Ave., Athens, O.

"My stomach gave me much distress from nausea and by filling up with gas after meals. I was constipated daily; had no appetite, and had aching pains in my back right over my kidneys. Dizzy spells often attacked me; I had a bitter taste in my mouth and my tongue was coated most all the time.

"Drecto has proven to be a wonderful remedy for such troubles as I had, for I'm feeling better than in many a day. I strongly recommend Drecto as a tonic for women." Drecto is made from the juices of twelve different herbs, roots, barks and leaves, which act directly on the stomach, liver, kidneys, bladder and the blood, and tends to relieve constipation, headaches, rheumatism, catarrh, biliousness, dizzy spells, heart fluttering, gas on the stomach and other troubles.

All good druggists now sell Drecto and it is being especially introduced in this city by

CAPTAIN EARNEST HILL
FEELS LIKE NEW MAN

Poplar Officer Was In Such Poor Health Before Taking Tanlac He Was Not Able to Report for Duty.

CAPTAIN EARNEST HILL,
Of Portland, Maine.

"I feel just like a new man since I began taking Tanlac and I am not only willing, but I am anxious to tell other people what this medicine has done for me," said Captain Earnest H. Hill, Portland, Me., recently.

Captain Hill is in command of the Ben Hur, plying between Portland and Casco Bay. He has been in the services for ten years and is held in high regard as an officer and citizen by all who know him.

"I have suffered from indigestion and stomach trouble for the past eight years," continued Captain Hill "and at the time I started taking Tanlac I could hardly stand up. When I walked I would actually stagger like a drunken man and, at times, would have to hold on to something to keep from falling. After every meal I would simply suffer torment. My food would sour and I would swell up so with gas I could hardly get my breath.

"I would also have awful smothering spells at night and sometimes I would have to get up to get my breath. Lots of times I would have to open the windows and doors to let in fresh air, or go out into the open air in order to get my breath. I could not find anything to do me any good and along toward the last I be-

came so weak and nervous I could not do my work.

"Five bottles of Tanlac have made a wonderful change in my condition. It helped me from the very first dose and now I feel as good as I did when I was twenty years old. I sleep fine and have a fine appetite and just feel like a new man in every way. I am now able to be on deck every day ready for duty."

Tanlac is sold in Washington by C. S. Haver, in Lowell by Mason's Drug Store, in Jeffersonville by J. B. Davis, and in Octa by I. W. Murphy.—Advt.

ASSEMBLY AGAIN
SOUNDS FOR VETS
OF THE RAINBOW

Members of the Famous 42nd Division Summoned to Memorial Hall Saturday Evening.

Organization to be Effected For Attending State Reunion on May 14-15 in Columbus.

Veterans of the 42nd (Rainbow) Division will hear the call of assembly on Saturday evening, May 8th, at seven thirty at Memorial Hall in this city when arrangements will be made for attending the State Reunion of Rainbows in Columbus May 14-15.

The committee in charge in this city has asked that everyman who served with the famous 42nd be present so that an estimate may be made of the number who are interested in attending the first reunion. It is possible, if enough men are willing, that a special car may be chartered and a lower rate for the trip may be obtained.

Fayette county has more than seventy veterans of the 42nd who will want a chance to see their "buddies" and to talk over the changes that the year in civies has brought about.

No lack of preparation is being made for receiving the Rainbows and for extending to them the best of entertainment. Friday, the 12th has been set apart for the festivities and the Mezzanine floor and ball room of the Southern Hotel have been chartered for the occasion.

"Company rendezvous" will be a feature of the two day reunion. Each company will be provided with a special meeting place and if a Fayette Rainbow wants to see his former bunkie who lived in the southwest all he will have to do is register his name and his old pard will be brought face to face with him in a few minutes.

Saturday will be devoted to a business session and a permanent organization will be effected so that the name Rainbow may never become unattached.

THREE YEARS WITHOUT HOPE

A Story of Sickness and Suffering with Final Return to Health
It will do you good to read it

No matter how long nor how much you have suffered, do not give up hope. Do not decide there is no help for you. There is. Make up your mind to get well. You can. There is a remedy in which you may place full reliance as did Mrs. Rosalia Kania of 39 Silver Street, New Britain, Conn. This is what she says: "I had cramps for three years and thought I would never be any better. I could not eat without distress. Slept with my mouth open and could hardly breathe. No medicine helped me. I had catarrh of the stomach. Now I have no cramps and am feeling well and healthy. I wish every suffering person would take PE-RU-NA."

Catarrh effects the mucous membranes in any organ or part. PE-RU-NA, by regulating the digestion and aiding elimination, sends a rich, pure supply of blood and nourishment to the sick and inflamed membranes and health returns.

For coughs, colds, catarrh and catarrhal conditions generally, PE-RU-NA is recommended. If you are sick, do not wait and suffer. The sooner you begin using Dr. Hartman's well-known PE-RU-NA, the sooner you may expect to be well and strong and in full possession of your health. A bottle of PE-RU-NA is the finest emergency, ready-to-take remedy to have in the house. It is fourteen ounces of prevention and protection.

Sold everywhere in tablet or liquid form.
